Cedar House, La Grande Route Des Mielles

St. Ouen, Jersey

Set in one of Jersey's most iconic bays, this detached home captures everything people love about St Ouen's — endless horizon views, total privacy, and that rare feeling of being part of the landscape rather than just looking at it.

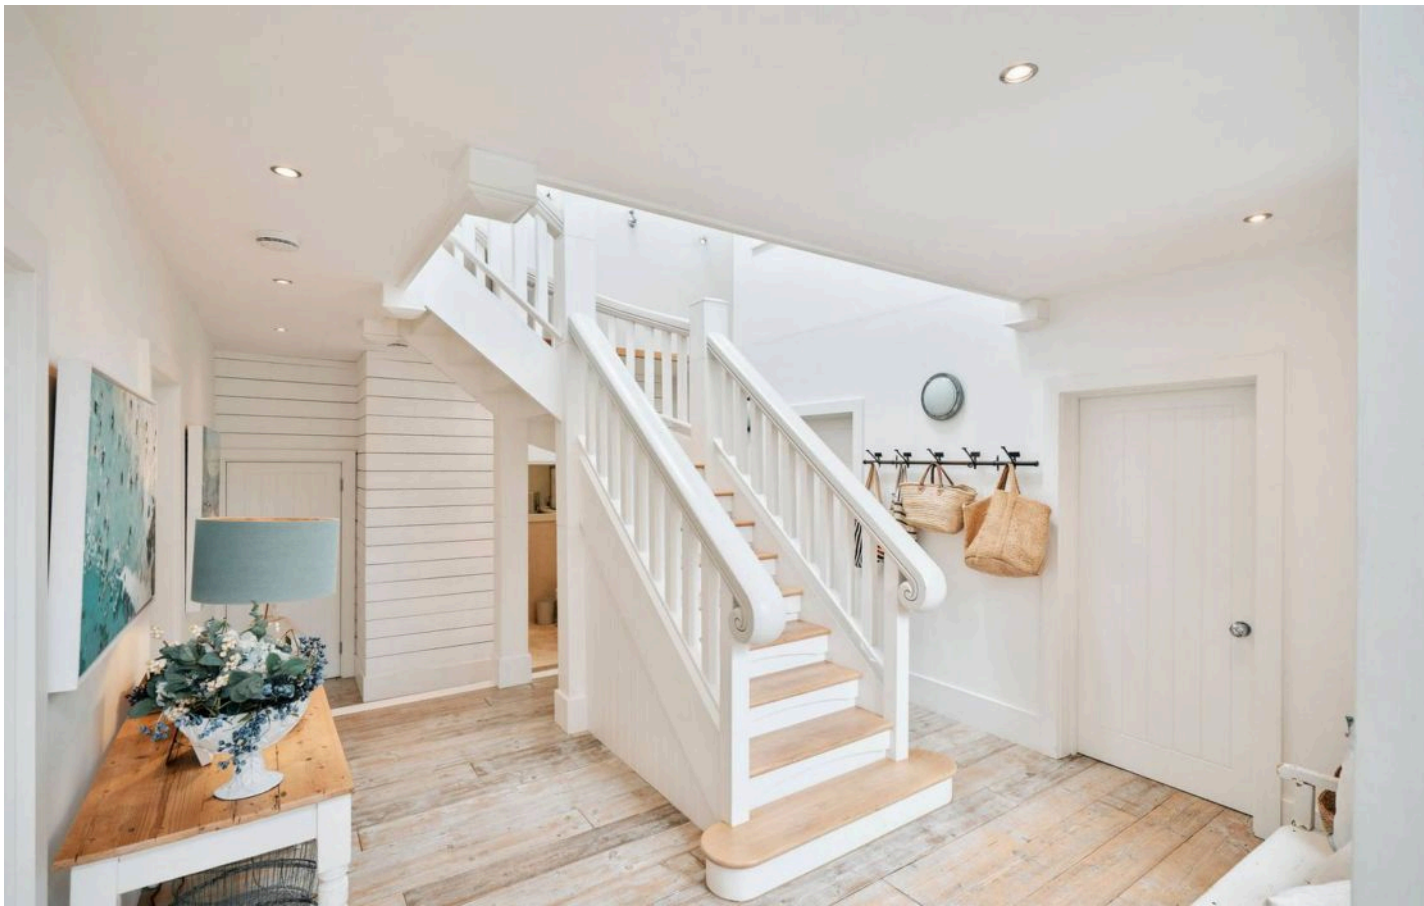

The house is designed for space and connection, with vaulted ceilings, light flooding through every window, and an open living area made for entertaining. From the main reception, glass doors open straight out to panoramic sea views — sunsets here aren't something you watch; they fill the room.

With five bedrooms and four bathrooms, the layout balances generous family living with quiet retreats. There's also a separate reception room, ideal as a snug, home office, or play space — giving flexibility for how modern families actually live.

Outside, the property is completely private, with both front and rear gardens, a swimming pool, and direct access to the beach at the front and National Park land behind. Morning walks on the sand, evening swims, and open-air dining all come as standard here.

A garage and ample parking complete the practical details, but this home is really about lifestyle — wide horizons, open spaces, and the calm that only St Ouen's can deliver.
