The Old Station Place is an exclusive development of bespoke built four and five bedroom detached houses situated in a highly regarded and picturesque location surrounded by some beautiful countryside. Phase 1 of the development consists of four individual houses each with unique characteristics and all enjoying an outlook over the surrounding fields.

Accommodation is laid out over two or three storeys with spacious bedrooms and en-suite bathrooms to the first and second floors while the ground floor designs allow for a combination of open plan living spaces and separate reception rooms. Externally the houses will be approached along a private driveway with tegula paving and each will benefit from either a double garage or carport with good sized gardens enjoying a good degree of privacy.

These homes will be extremely energy efficient with air-source heat pumps and solar panels installed to each house with underfloor heating throughout the ground floor and radiators to the first floor.

The Laurels (Plot 2) provides thoughtfully laid out accommodation with all rooms, apart from one bedroom, enjoying an outlook over the South facing garden and beautiful countryside beyond. The open plan kitchen, dining and sitting room features two sets of bi-fold doors out to the rear garden which really helps to link the house with the outside space. To the first floor, the current layout comprises four double bedrooms (one with en-suite) but we feel there is also the opportunity to create a spectacular master suite and dressing room by incorporating bedrooms one and two. This would still leave two good double rooms served by the family bathroom.

Pipe Gate is located just outside the village of Woore and provides a friendly community with immediately local amenities including pubs, cricket and tennis clubs, post office and village store. The ever popular Bridgmere Garden Centre is just a mile or so down the road with the towns of Nantwich, Newcastle under Lyme and Market Drayton all within easy driving distance. For those needing to get further afield, junctions 15 and 16 of the M6 are each within approx. 15 minute drive.

Sitting on the Cheshire/Shropshire/Staffordshire borders, this area offers some breathtaking scenery in the surrounding countryside with excellent walks on offer for lovers of The Great Outdoors.

The first houses are due for completion early in 2026. On site viewings must be booked by appointment with the agents and all enquiries can be directed to John Follwell on:
