ADDITIONAL INFORMATION

PLEASE NOTE: The workshop to the rear of the property is NOT included in the sale and owned by the neighbour. Whilst the driveway to the right of the property is included within the title of 1 Lingyclose Road you must give right of way for the workshop at all times.

Services: Mains electricity & oil heating. Please note: measurements are approximate so may reflect the maximum dimensions and the mention of any appliances/services within these particulars does not imply that they are in full and efficient working order.

Septic Tank: The property is served by a private septic tank system. A specialist inspection carried out in July 2026 confirmed that the septic tank and associated drainage field were operating satisfactorily at the time of inspection, with no evidence of pollution, surface discharge or system failure. The inspection also concluded that the existing septic tank, was originally designed to serve the original three-bedroom dwelling and is now considered undersized following the property's later extension. Whilst the system is currently functioning, compliance with current General Binding Rules and modern design standards could not be confirmed, and future owners may wish to undertake further investigations and consider upgrading the system in due course. The drainage field is located on neighbouring land, and purchasers should satisfy themselves that appropriate rights of drainage and access are in place. A copy of the specialist septic tank inspection report is available on request.
